(5) Specifies that a school corporation may not adopt an expenditure rate unless: (A) the expenditure rate is approved by the voters of the school corporation in a local public question; or (B) the revenue from the expenditure rate is used to provide additional property tax credits. Provides that if a school corporation's expenditure rate is approved by the voters, the revenue may be used for any legal purpose of the school corporation (including providing additional property tax credits). VARIOUS PROPERTY ISSUES (DORIOT B) Amends the statute concerning the Indiana coordinate system for describing real property to provide that coordinates based on specified coordinate systems and used to define the position of a point on a land boundary may not be presented to be recorded unless the recording document also contains: (1) the method used to relate the coordinates to the National Spatial Reference System; and (2) the name and zone of the coordinate system. Eliminates other reporting and certification requirements with respect to such recordings. Provides that if any coordinates (not specifically coordinates based on the Indiana coordinate system, as provided in current law) are used to describe a tract of land that is also described by a reference to the United States public land surveys: (1) the description by coordinates shall be construed as supplemental; and (2) in the event of a conflict, the description by reference to the United States public land surveys prevails over the description by coordinates. Provides that the statute does not require a purchaser or mortgagee of real estate to rely on a description, any part of which depends exclusively upon the Indiana coordinate system, unless the same description was previously used in a document conveying title to the real estate. Amends the statute concerning the statute of limitations for actions for the recovery of the possession of real estate to provide that such an action that: (1) involves a line located and established by a professional surveyor; and (2) accrues before the lines are located and established by the surveyor; must be commenced before the expiration of the appeal period set forth in the statute governing county surveyors. Amends the Indiana Code provision concerning the establishment of property lines by means of a legal survey to: (1) eliminate the exception to the required notice when all adjoining landowners consent in writing; and (2) specify that the lines established are binding on all affected landowners, including a landowner who claims title under a claim of adverse possession. Defines "original survey". Defines "retracement survey". Provides that, other than for descriptions of lots in new subdivisions, any new or modified real property description prepared by a professional surveyor as a product of an original survey or a retracement survey must include a caption that identifies: (1) the name and registration number of the professional surveyor preparing the description; and (2) the plat of survey produced as part of the original survey or retracement survey, including certain specified information. Repeals the section in the statute concerning the Indiana coordinate system that provides that the statute does not require a purchaser or mortgagee of real estate to rely on a description, any part of which depends exclusively upon the Indiana coordinate system. Makes conforming changes.

TAX ISSUES (HOLDMAN T) Provides that the lottery commission must obtain a tax clearance statement from the department of state revenue (DOR) for a retailer before the lottery commission may enter into a contract with that retailer. (Current law requires the retailer to provide the tax clearance statement to the lottery commission.) Requires the riverboat supplemental wagering tax and wagering tax to be paid four days (rather than one day, under current law) before the last business day of each month. Provides that, beginning after June 30, 2018, a county, city, or town that receives an initial application for a property tax abatement deduction (abatement deduction) for real or personal property in an economic revitalization area must notify each taxing unit in the taxing district in which the property is located of the receipt of the application. Allows each taxing unit to adopt a resolution to support the abatement deduction. Provides that, if less than all taxing units pass a resolution to support the abatement deduction, the county auditor shall apply the deduction only against assessed value for those taxing units that support the deduction, and may not apply the deduction against assessed value for the taxing units that do not support the deduction. Prohibits a county, city, or town from approving an abatement deduction if the deduction applicant or property owner, on the date of the application, is conducting the business activities: (1) that form the basis for the statement of benefits; or (2) that are required for the approval of the application; at another location in Indiana. Eliminates the infrastructure development zone property tax exemption for assessment dates after January 1, 2019. Eliminates the property tax deduction for personal property within a certified technology park that is assessed for the first time after January 1, 2019 (but does not eliminate the property tax deduction claimed under a deduction schedule filed after January 1, 2019, for personal property that was assessed for the first time before January 2, 2019). Eliminates the maritime opportunity district property tax deduction for new manufacturing equipment installed in a district after June 30, 2018. Provides that the reduced tax rate for a corporation in a qualified military enhancement area (area) applies only to a corporation that locates all or part of its operations in an area before January 1, 2019 (but does not prevent the tax rate from applying to succeeding taxable years of a corporation after December 31, 2018, if the corporation has located all or part of its operations in an area before January 1, 2019). Eliminates various income tax credits and deductions. Makes technical corrections and conforming changes. Provides that the DOR may require that certain information be provided or updated before the issuance or renewal of a registered retail merchant's certificate. Specifies that if for any taxable year a taxpayer is subject to different corporate income tax rates, the calculation is based on the number of days (rather than months, under current law) that each of the different tax rates is in effect. Provides that if the due date for a federal income tax return is extended by the Internal Revenue Service to a date that is later than the date otherwise required for a state income tax return, the DOR may extend the due date of the state return to the due date permitted for the federal return. Authorizes the DOR to issue refunds in certain circumstances without a taxpayer filing a refund claim. Requires certain state and local employees and contractors, subcontractors, and parties to a cooperative agreement with the state whose duties include access to confidential tax information to submit to a fingerprint based criminal history background check of both national and state records data bases.

Allows the state board of funeral and cemetery service (board) to authorize a withdrawal of up to \$50,000 from the fund in response to an application concerning a cemetery in need of emergency maintenance. Authorizes the board to suspend the requirement that cemetery owners make payments to the fund if the fund balance equals or exceeds \$500,000. (Under current law, the requirement to make payments to the fund can be suspended if the fund balance equals or exceeds \$250,000.) Provides, for purposes of the law concerning township care of cemeteries, that the maintenance of a cemetery includes mowing the lawn. Authorizes the trustee of a township to provide financial assistance for maintenance purposes to a cemetery that is operated by a nonprofit organization and located in the township if the trustee reasonably believes that: (1) the funds available to the cemetery from its perpetual care fund and other sources are not sufficient to provide for the necessary maintenance of the cemetery; and (2) providing financial assistance to the cemetery will help to prevent the full responsibility for maintenance of the cemetery from falling on the township. Provides that those cemeteries that are ten acres or less in size may not access the consumer protection fund for cemetery maintenance. (Current law provides that cemeteries that are: (1) ten acres or less in size; (2) owned and operated by a nonprofit mutual association in existence on June 14, 1939; and (3) in which burials took place before June 14, 1939; could not access the consumer protection fund for cemetery maintenance.) Provides that a member of the state board of funeral and cemetery service may serve not more than two consecutive terms on the board. Eliminates the consideration of a board member's service on the state board of embalmers and funeral directors as a limitation on the number of terms the member may serve on the state board of funeral and cemetery service.

SB409 REGULATED DRAINS AND ENVIRONMENTAL CONCERNS (CHARBONNEAU E) Authorizes a county surveyor to classify a regulated drain as a drain in need of reconstruction if: (1) the functionality of the drain is compromised; and (2) the drain could, at a reasonable cost, be reconstructed to perform the function for which it was designed while also better serving the interests of public health or significantly reducing undesirable environmental effects, or while also providing flood reduction benefits. Authorizes a county surveyor to classify a regulated drain as a drain in need of periodic maintenance if the drain can be made: (1) to perform the function for which it was designed and constructed; (2) to properly drain affected land; and (3) to better serve the interest of public health, produce fewer undesirable environmental effects, or provide flood reduction benefits; through periodically cleaning, spraying, removing obstructions from, and making minor repairs, additions, or alterations to the regulated drain. Provides that the maintenance fund established for a regulated drain or combination of regulated drains may be used to: (1) better serve the interests of public health; (2) reduce undesirable environmental effects; (3) provide flood reduction benefits; (4) improve drainage control; or (5) provide drainage water storage infrastructure or technology associated with water that flows in or into a particular regulated drain or combination of regulated drains. Authorizes a county surveyor, when determining the best method of reconstructing a regulated drain or the best method of drainage for the area to which a petition to establish a new regulated drain relates, to consider cost effective drainage designs that limit undesirable environmental effects, improve public health, or provide flood reduction benefits.
