

The City is looking out for our most valuable resource...YOU!!

In a Pandemic We Have You Covered

- +
- Health Screenings
- Proper PPE
- Advanced Nightly Cleanings
- Quick and Effective Testing
- Protective Policies
- Medical Insurance
- Dedicated Resources

The COVID-19 Pandemic has caused much concern for the continued health of both our immediate and work families. Your elected officials and Department Heads have been working tirelessly to ensure that we are taking every precautionary measure to provide you with a safe working environment.

Prevention

All Employees will be required to continue their entrance and exit Health Screenings (i.e. temp).

PPE is available to ALL employees (just ask). This includes facemasks, hand sanitizer, gloves and more.

Work areas and vehicles will be disinfected per protocol,

If an employee will be within 6' of any person of the public, he/she must wear a mask unless he or she is separated via a window or plexiglass.

Social Distancing

The City will continue to follow recommendations from the CDC, WHO and Governor's Office

Please continue social distancing as recommended by your respective departments.

Distancing lines will be placed at each department and appropriate technologies will be made available for the completion of your duties.

For more information on CDC guidelines, visit www.CDC.gov

Testing

The City of Crown Point has negotiated advanced COVID-19 and Syndromic testing through our healthcare provider. If you are showing symptoms of COVID we will send you at NO CHARGE to our clinic for a test.

If you are asymptomatic and would like a test, you can still obtain a test; however, you will be able to use your HSA dollars for the cost of the test.

Test results will be generally available within 24 hours with a 99.999% accuracy

Additional tests are also available.
