Caps the operations fund maximum levy for school corporations and ensures that each school receives a specified amount of funding by providing for a distribution from the fund, if needed, to achieve the targeted funding amount. Includes property taxes imposed by a school corporation for its operations fund under the provisions that apply to the allocation of protected taxes to a fund. Provides that the governing body of a school corporation may not adopt a resolution to: (1) place a referendum on the ballot for an operating referendum tax levy; or (2) extend an operating referendum tax levy; that would impose a property tax rate for an assessment date after December 31, 2023 (does not affect a resolution adopted before January 1, 2024, or an operating referendum tax levy approved or extended before January 1, 2024). Authorizes the fiscal body of certain small cities and towns to adopt a resolution to place an operating referendum tax levy on the ballot. HB1172 EMINENT DOMAIN BY PUBLIC UTILITIES (CHERRY R) Defines a "pipeline company" and a "public utility" for purposes of the statute governing the general procedures to be used in acquiring property by eminent domain. Amends the statute with respect to an eminent domain action filed by a public utility or a pipeline company after June 30, 2022, as follows: (1) Provides that the public utility or pipeline company must pay the defendant landowner not less than the amount of damages specified in the court appraisers' report for the property or easement condemned, subject to the landowner's right to file written exceptions to the court appraisers' assessment and proceed to trial. (2) Eliminates a provision in current law exempting a plaintiff public utility or pipeline company from having to pay a defendant's reasonable costs and attorney's fees (not to exceed \$25,000) incurred by the defendant in filing an objection to an eminent domain action, if the objection is sustained by a trial court or on appeal. (3) Requires a plaintiff public utility or pipeline company to pay to the circuit court clerk the amount of damages assessed by the court appraisers. (Current law allows a plaintiff in an eminent domain action to pay such amount to the court in order to take possession of and hold interest in the property acquired.) (4) Provides that the plaintiff public utility's or pipeline

company's required offer of settlement before trial may not be less than the amount of damages specified in the court appraisers' report for the property or easement condemned. (5) Makes conforming amendments. Amends the statute with respect to an eminent domain action filed by any plaintiff to provide that if there is a trial and the amount of damages awarded to the defendant by the judgment is greater than the amount specified in the plaintiff's last offer of settlement, the court shall award the defendant costs, including reasonable attorney's fees, in an amount not to exceed the fair market value of the defendant's property or easement (versus an amount not to exceed the lesser of: (1) \$25,000; or (2) the fair market value of the defendant's property or easement; under current law).

PROPERTY TAX MATTERS (BUCHANAN B) Provides that a county assessor or township assessor (if any) may request the department of local government finance (department) to perform a state conducted assessment of commercial real property used for retail purposes that is at least 100,000 square feet and that is occupied by the original owner or by a tenant for which the improvement was built for a specific assessment date. Sets out the procedures for a state conducted assessment. Provides that the true tax value of commercial real property used for retail purposes that is at least 100,000 square feet and that is occupied by the original owner or by a tenant for which the improvement was built shall be determined by the cost approach for the first 10 years of occupancy of the property, less normal depreciation and normal obsolescence under the rules and guidelines of the department. Requires the department to annually establish a standard construction cost per square foot for these properties for each region based on the average market cost in the state to be used for purposes of the assessment, unless the taxpayer has provided the taxpayer's determination of actual construction costs to the appropriate assessing official not later than 45 days after the date of the assessment notice that is the subject of the review. Requires the taxpayer, if a taxpayer has provided the taxpayer's determination of actual construction cost within 45 days after the assessment notice, to provide to the county property tax assessment board of appeals (PTBOA) information necessary to determine the actual construction costs for the real property. Requires that the taxpayer's actual construction costs must be used for purposes of the assessment if the PTBOA determines that actual construction costs for the real property are less than the standard construction cost established by the department. Requires the fiscal officer of the county to establish a separate account for the tax receipts that are attributable to the property tax assessment that is the subject of review. Provides that if a taxpayer files a notice of an assessment appeal and a major roadway or traffic pattern located on the property is changed, that change must be considered in the determination of the property's assessed valuation in the appeal.

ATTACHMENTS TO ELECTRIC DISTRIBUTION POLES (KOCH E) Amends the statute concerning attachments of equipment by cable operators (attaching entities) to electric distribution poles owned or controlled by rural electric cooperatives or by municipalities providing electric service (pole owners) as follows: (1) Specifies that a pole owner's duty under the law to permit attachments to the pole owner's poles is subject to the terms of a written agreement between the pole owner and the attaching entity. (2) Provides that the written agreement between the attaching entity and the pole owner must establish the process by which the attaching entity may apply for access to the pole owner's poles. (3) Sets forth: (A) a time frame for the pole owner to respond to the attaching entity's application based on the number of poles included in the application; and (B) a pole owner's duty to do one of the following within that time frame: (i) Approve the application and authorize the attaching entity to make the attachments without the need for any make ready work. (ii) Submit to the attaching entity an invoice setting forth all necessary make ready work, the estimated make ready costs, and the estimated make ready completion date. (iii) Reject all or part of the attaching entity's application based on certain concerns that cannot be resolved by make ready work. (4) Specifies that an attaching entity must have the pole owner's written permission specifically authorizing an attachment for each pole on which the attaching entity seeks to place an attachment. (5) Provides that if the attaching entity violates this requirement, the attaching entity shall pay to the pole owner accrued rental fees for each pole on which an unauthorized attachment is made, dating back to the date the attachment is considered to have been made under existing law, plus a \$500 penalty for each pole on which an unauthorized attachment is made. (6) Provides that before January 1, 2023, if a contract granting the pole owner's written permission for an attachment to a particular pole does not exist at the time an attachment is made, the attaching entity shall pay to the pole owner accrued rental fees for each pole on which an attachment is made without a contract authorizing the attachment on that pole, dating back to the date the attachment is considered to have been made under existing law, plus any penalty that may be prescribed for such an attachment under any existing contract between the pole owner and the attaching entity. (7) Provides that if, after December 31, 2022, the attaching entity has not paid all accrued rental fees for such attachments made before January 1, 2023, the attaching entity shall, in addition to the accrued rental fees that remain outstanding, be liable for the \$500 fine that otherwise applies for each pole on which such an attachment was made before January 1, 2023, and for which the attaching entity has not paid all accrued rental fees. (8) Changes from 90 days (under current

law) to 60 days the amount of time by which an attaching entity is responsible for transferring an authorized attachment after receiving written notice from the pole owner to do so. Makes a corresponding change in the amount of time after which the pole owner may rearrange, transfer, or relocate the attaching entity's system (or portion of the system) after the attaching entity has failed to do so. (9) Provides that the pole owner is immune from civil liability for the pole owner's actions in rearranging, transferring, or relocating the attaching entity's system, as long as the pole owner exercises reasonable care in taking such actions, and unless the pole owner's actions constitute gross negligence or willful or wanton misconduct. (10) Creates the offense of unlawful pole attachment, a Class C misdemeanor, for the knowing and intentional attachment to a pole without the pole owner's written permission specifically authorizing the attachment.

SB273

FINANCING OF WATER AND WASTEWATER UTILITY ASSETS (KOCH E) Provides that the IURC may approve periodic tracking mechanisms for water or wastewater utilities to permit such utilities to recover the following: (1) Changes in property taxes. (2) With respect to customers located within the geographic boundaries of local units of government, incremental costs of operation and maintenance resulting from policies or ordinances that are adopted by those local units and that the IURC determines to be unusual but not necessarily unreasonable. Requires the IURC to adopt rules to define what is unreasonable with respect to road cut permits and other specifications or policies established by a local unit that imposes costs on water or wastewater utilities. Amends the statute concerning wholesale water sales between small water utilities by increasing from 5,000 to 8,000 the threshold number of customers served by a water utility (as either a purchaser or supplier) for purposes of the statute. Amends the statute governing infrastructure improvement charges for water or wastewater utilities as follows: (1) Specifies that an "eligible infrastructure improvement" includes: (A) a project to relocate existing utility plant, including projects to accommodate the construction, reconstruction, or improvement of a highway, street, or road; and (B) a project that does not increase revenues by connecting to new customers, even if the project provides greater available capacity with respect to an eligible utility's distribution or collection plant. (2) Sets forth distinctions for public utilities, municipally owned utilities, and not-for-profit utilities with respect to: (A) costs that are eligible for recovery under the statute; (B) the factors the IURC may consider in determining the amount of allowable cost recovery; and (C) the resetting of the adjustment amount after a base rate case. (3) Specifies that the limitation restricting total adjustment revenues to 10% of an eligible utility's most recently approved base revenue level does not apply with respect to property taxes associated with eligible infrastructure improvements. Amends provisions in the Indiana Code chapter concerning a utility company's acquisition of an offered water or wastewater utility, by providing that the rates charged by the acquiring utility company are not considered to increase unreasonably as a result of the acquisition if the net original cost of the acquired assets does not exceed 2% of the acquiring utility company's net original cost rate base as determined in the acquiring utility's most recent general rate case, plus any adjustments to the rate base resulting from: (1) an infrastructure improvement charge; or (2) an adjustment rider for service enhancement improvement costs; that have occurred after the rate case. Makes a similar change to the Indiana Code section concerning the sale of a municipally owned utility's nonsurplus utility property.

SB413

MENTAL HEALTH CARE (NIEZGODSKI D) Provides, for purposes of provisions of law under which a mentally ill individual may be committed if the individual is dangerous, that an individual may be "dangerous" even though the individual is not inclined toward violent behavior. Amends the provision of law under which an Indiana resident who has a mental illness may be voluntarily admitted to a facility (a hospital, health and hospital corporation, psychiatric hospital, community mental health center, or other institution where an individual with a mental illness can receive rehabilitative treatment and care) to provide that, for purposes of that provision, "mental illness" includes psychiatric and neurobiological brain disorders, including bipolar disorder and major depressive disorder, that sometimes make an individual's performance of the normal activities of everyday life very difficult or impossible. Provides that the voluntary admission of an Indiana resident to a facility by the facility's superintendent may not be limited to Indiana residents who are referred to the facility by a court, the department of child services, a law enforcement agency, or any other officer or entity of state or local government. Provides that whether an individual has insurance coverage and whether the cost of the individual's care may be paid by or on behalf of the individual with private funds may not be considered in determining whether the individual: (1) is admitted to or allowed to continue receiving care in a state institution (an institution that is owned or operated by the state for purposes of the observation, care, treatment, or detention of individuals); or (2) is allowed to receive or continue receiving care from a community mental health center.
