Specifies the amount of revenue from a local income tax rate imposed for correctional facilities and rehabilitation facilities in a county that may be used for operating expenses of those facilities. Allows a county fiscal body to adopt a local income tax rate for an acute care hospital located in the county. Allows the adopting body in Marion County to adopt a local income tax rate to be used for improvement and services projects (projects) located within the boundaries of the Mile Square area. Provides that if the local income tax rate is adopted, the Mile Square improvement and services projects board is established to use the revenue generated for the projects. Provides that the department of local government finance shall make certain adjustments pertaining to the distribution of LIT for Floyd County in 2025, which provide that the Highlander Fire Protection District (district) shall receive an amount equal to the combined distribution that would have been distributed to the Greenville Fire Protection District (FPD) and the Lafayette Fire Protection District (FPD) in 2024, but for their elimination resulting from the merger to establish the district. Requires corresponding adjustments in 2025 to reduce the distribution for each applicable civil taxing unit and school corporation in Floyd County, excluding the district, by an amount that equals the proportionate share of the amount of LIT received in 2024 of the combined distribution that would have been distributed to the Greenville FPD and the Lafayette FPD in 2024, but for their elimination. Provides, for purposes of calculating distributions of the financial institutions tax to local taxing units, how to calculate distributions for a taxing unit that did not receive distributions in 2012 because the unit was subsequently established from the merger or consolidation of two or more taxing units that received distributions from the financial institutions tax fund in 2012. Provides, for purposes of calculating qualified distributions of the commercial motor vehicle excise tax to local taxing units, how to calculate base revenue distributions for a taxing unit that did not receive a base revenue distribution in 2001 because the taxing unit was subsequently established from the merger or consolidation of two or more taxing units that received base revenue distributions in 2001. HB1429

LOW WATER CROSSINGS (PATTERSON L) Defines "low water crossing" as a place where a road crosses a stream having a water level that is normally well below the level of the road but may in times of heavy rain rise above the level of the road to a depth that is difficult for the driver of an oncoming automobile to judge, creating the risk that the driver will attempt to cross at the crossing and the driver's automobile will become buoyant and be swept off the road. Defines "low water crossing project" as a project that consists of installing appropriate road signs to warn automobile drivers as they approach a low water crossing, replacing damaged or undersized road culverts in a low water crossing with culverts that will accommodate a greater quantity of stream flow under the road, or replacing a low water crossing with a bridge. Authorizes a local county road and bridge board to undertake low water crossing projects. Requires the commissioner of the department of transportation (department) to ensure that the department makes information available to county boards of commissioners and county highway departments about funding from federal and private sources that might be available to the counties for low water crossing projects. Amends the law on the local road and bridge matching grant fund: (1) to allow grants to local units to be used for low water crossing projects; and (2) to provide that funds allocated for grants to local units having a population of less than 50,000 can be used to make grants to counties below the population limit as well as to municipalities located in counties that are below the population limit.

SB265 ELIMINATION OF PROPERTY TAX ON HOMESTEADS (BASSLER E) Changes the credit for excessive property taxes for homesteads from the amount by which a person's property tax liability attributable to the person's homestead exceeds 1% of the gross assessed value of the property that is the basis for determination of property taxes for the calendar year to an amount equal to the person's property tax liability attributable to the person's homestead. Excludes from the credit any portion of a person's property tax liability that was approved by voters in a referendum and that would not ordinarily be subject to a credit for excessive property taxes. Allows a county's adopting body to adjust the tax rate imposed on the adjusted gross income of local taxpayers in the county based on the actual property taxes that were due and payable during 2024 to compensate for the amount of any tax revenue shortfall incurred as a result of the reduction in tax revenue attributable to the increase in the credit amount. For years beginning after December 31, 2024, requires the department of local government finance (department) to, before July 1 of the year in which property taxes are first due and payable, estimate the amount of any tax revenue shortfall incurred by the county in the year in which the property taxes are first due and payable as a result of the reduction in tax revenue attributable to the increase in the credit amount. For years beginning after December 31, 2024, allows a county's adopting body to adjust the tax rate imposed on the adjusted gross income of local taxpayers in the county in accordance with the estimate to compensate for the amount of any property tax revenue shortfall incurred by the county in the year in which the property taxes are first due and payable as a result of the reduction in tax revenue attributable to the increase in the credit amount. Provides that the maximum tax rate that may be imposed on the adjusted gross income of local taxpayers in a county after an adjustment may not exceed 2.9% in addition to: (1) the maximum allowed property tax relief rate in the county; (2) the maximum allowed local income tax expenditure rate in the county; and (3) the maximum allowed special purpose tax rate in the county. Provides that a county's adopting

body, at its discretion, may increase the adjustment by an additional rate of 0.25%. Requires the revenue collected as a result of the adjustment to the tax rate imposed on the adjusted gross income of local taxpayers in the county to be treated as property taxes for all purposes. Requires the department to approve, in a manner determined by the department, the estimate, the corresponding adjustment, and the use of the revenue for each county. Increases, from \$3,000 to \$9,000, the amount an individual who rents a dwelling for use as the individual's principal place of residence may deduct from the individual's adjusted gross income.
